2017 Water Main Flushing Program Begins April 17th

The periodic water main flushing program of the Village Water Department will begin Monday, April 17, 2017, and will continue until all pipes in the system have been systematically flushed.

The program is scheduled to prevent discoloration of water during the heavy demand periods of the summer. Slight discoloration may occur during the flushing period but will settle out in a short time. Though the water is safe for consumption it may stain clothes if washed in it.

During the week of April 17th the cleaning operation will occur in Greenacres section -West of Post Road, Fox Meadow, Old Scarsdale, Overhill, Berkeley in Scarsdale, Bramlee Heights, and Post Road starting from White Plains through Eastchester and Arthur Manor neighborhoods.

During the week of April 24th the cleaning operation will continue in the Drake Edgewood, Sherbrooke Park, Heathcote, Murray Hill Middle Heathcote, East Heathcote, Secor Farms, and Part of West Quaker Ridge neighborhoods.

During the week of May 1st the cleaning operation will continue in the West Quaker Ridge, Scarsdale Meadows, Quaker Ridge and Colonial Acres neighborhoods.

A map of planned flushing areas for each working day can be viewed [here](#).

During flushing, water in the general area may become discolored. Anticipate discolored water during the day and early evening. Surrounding areas may also experience some discoloration.

Weekly program activities will be broadcast on Village public access channels 76 (Cablevision) and 42 (Verizon), and in the Water Department section of the Village Web site at www.scarsdale.com.
