Display of Fireworks

Application Instructions & Information

Application

- Step 1) Please complete the application by answering the questions and providing the information requested. If you have any questions concerning the application, you may call the Fire Inspector Office for assistance at 914-722-1219(Fax 914-722-1214).
- Step 2) The application must then be endorsed by the Fire Chief . Any arrangement for fire apparatus for the event must be made with the fire chief at this time. The application must then be returned to the Fire Inspector, along with The Certificate of Insurance naming the Village of Scarsdale and its agents as additionally insured.
- Step 3) The Fire Inspector Office will conduct an inspection of the proposed display site for the purpose of determining whether the provisions of applicable regulations can be complied with for the particular display. He may confer with the Fire Chief, the Chief of Police, or others as he deems necessary to determine whether issuance of a Permit would be consistent with public safety. Failure by the Fire Inspector to approve the application shall be sufficient cause to deny the issuance of a Permit to display fireworks.

Site, Operational & Other Minimum Requirements

1. The actual point at which the fireworks are to be fired shall be at least 200 feet from the nearest permanent building, public highway, railroad or other means of travel or as otherwise specified by the Fire Inspector.
2. The actual point at which the fireworks are to be fired shall be at least 50 feet from the nearest above ground utility line, tree, or other overhead obstruction or as otherwise specified by the Fire Inspector.
3. The audience at such display shall be restrained behind lines in accordance with National Fire Protection Association standard #1123 or as otherwise specified by the Fire Inspector.
4. The operator (the person in charge of setting up and firing the fireworks) is responsible for ensuring that a sufficient number of assistants are on hand for the safe conduct of the fireworks display. Only the operator and necessary assistants shall be permitted in the discharge area while the display is in progress.

Applicant to keep this page for information and use

5. The operator is responsible for ensuring that all assistants are fully trained in the proper performance of their assigned tasks, that they are knowledgeable of safety hazards, and wear appropriate personal protective equipment and gear. At least two (2) approved type fire extinguishers of appropriate capacity shall be kept at as widely separated points as possible within the actual area of the display firing site.
6. There shall be at least two (2) persons, the operator and an assistant, constantly on duty during the discharge.
7. The fireworks display must be terminated by 11:00 p.m.
8. Arrangements for fire department apparatus to be present at the site shall be made between the Fire Chief and the organization sponsoring said display. Such arrangements should be made at the time this application is endorsed by the Fire Chief and prior to submission of this application. Any cost for such service shall be the responsibility of the applicant.
9. All fireworks that fire a projectile shall be set up so that the projectile will go into the air as nearly as possible in a vertical direction, unless such fireworks are to be fired from a barge or from shore, when such fireworks shall be directed in such a manner that the falling residue from the deflagration will fall into such body of water.
10. The operator, upon conclusion of the display, shall make a complete and thorough search for any unfired fireworks or pieces which have failed to fire or function and shall dispose of them in a safe manner. All debris from the discharged fireworks shall also be properly disposed of by the operator before leaving the premises. Such search shall be instituted at the earliest possible time following the conclusion of the display but in no event later than the first period of daylight which follows.
11. No fireworks display shall be held during any windstorm in which the wind reaches a velocity of more than 20 miles per hour.
12. The sponsor shall, the following morning, conduct a complete and thorough search for debris and properly dispose of same. Any fireworks debris which looks whole shall not be picked up. The fireworks company must be contacted for proper disposal.
13. The sponsor shall also be responsible for any other special provisions that the Fire Inspector deems necessary to the health, safety and welfare of the general public.

Please Note:

- A. No Permit shall be granted for any display of fireworks where the discharge, would endanger persons, buildings, structures, forests, or brush, nor in any case where the distances as specified in 1, 2 and 3 above are not provided and in no case shall a display be fired within 500 feet of a school, theater, church, hospital, or similar institution.
- B. Only authorized fire personnel and those persons in actual charge of the display shall be allowed inside the audience restraining lines or barriers during the unloading, preparation, or firing of fireworks.
- C. All fireworks articles and items at places of display shall be stored in a manner and in a place secure from fire, accidental discharge, and theft and in a manner approved by the Fire Inspector.
- D. The operator shall be able-bodied, at least twenty-one (21) years of age, competent for the task, and shall have a certificate of competency in his possession when engaged in conducting a display and shall exhibit same on request of any person. Each person assisting the operator shall be able-bodied, at least eighteen (18) years of age, and capable of reading, writing, speaking, and understanding the English language.
- E. Whenever, in the opinion of the Fire Inspector or the operator, any adverse condition exists that significantly affects safety, the fireworks display shall be postponed until the condition is corrected.
- F. If, in the opinion of the Fire Inspector or the operator, the lack of crowd control poses a danger, the fireworks display shall immediately be discontinued until such time as the situation is corrected.
- G. If high winds, precipitation, or other adverse weather conditions prevail, such that in the opinion of the Fire Inspector or the operator a significant safety danger exists, the fireworks display shall be postponed until weather conditions improve to an acceptable level.
- H. No person shall be allowed in the discharge area while under the influence of alcohol, narcotics, or drugs.
- I. The person to whom a Permit has been issued shall arrange with the local fire department for equipment as may be deemed necessary by the Fire Chief or Fire Inspector. The fire department personnel shall be on duty until the termination of the display and the removal of all fireworks and debris from the site. The expense for such firemen shall be the responsibility of the permittee.
- J. All disputes arising as a result of the administration of these rules and regulations shall be referred to the Fire Inspector who shall be the final authority in all cases.
- K. The fireworks demonstration must be terminated by **11:00 p.m**
