### **Freightway Redevelopment Study Public Workshop: September 28**

The Village of Scarsdale is conducting a visioning study to guide potential redevelopment of the Freightway Site, an underutilized area adjacent to the Scarsdale Metro North Railroad Station. The second Freightway Redevelopment Study public workshop will be held on Thursday, September 28<sup>th</sup>, from 7-9 PM at the Scarsdale Congregational Church, 1 Heathcote Road, Scarsdale NY 10583.

The Freightway Steering Committee welcomes all interested residents, property owners, merchants and other stakeholders to attend and share their thoughts on the vision, goals and objectives for the site.

The purpose of the second workshop is to inform the public about issues and opportunities related to the site and to test preliminary concepts for the future of the site. After an introductory presentation, there will be an interactive session for participants to discuss ideas, goals and objectives in small groups. Potential scenarios will be presented and discussed. Each of the roundtable discussion groups will report their findings to the larger audience at the end of the session.

The study's goal is to provide a community-based vision to ensure future redevelopment enhances the Village Center and meets local needs. Broad and meaningful public engagement is critical to the study's success. The study will continue to provide numerous opportunities for public input including public workshops, stakeholder interviews and focus groups. An online survey was conducted over the summer with more than 470 responses.
