Don't Blow It: Landscaping Season 2019

Our Village in a Park setting would be less than ideal without the range of beautiful colors, textures, and scents that our public and private landscapes contribute to. However, landscaping can sometimes create problems, such as visual obstructions for persons driving, walking, or biking, and necessary maintenance has the potential to disrupt the peace and enjoyment of others.

Thus, with the landscaping season now upon us, please remember to be cognizant of such issues as potential noise impacts to neighbors, and that healthy plants may grow with such vigor as to create public safety hazards for those traveling our streets, sidewalks, and paths.

Additionally, the height of plantings located at or near any street curve, corner, or intersection must be maintained in accordance with Village Code Chapter §294-1.

Lastly, please also note that Village Code Chapter §205-2(B) prohibits the use of gasoline-powered leaf blowers from June 1 through September 30 of every year.

The Village Code can be accessed through scarsdale.com by selecting or hovering over the Government tab and then clicking "Scarsdale Village Code", or simply click here: <https://tinyurl.com/Scarsdale-Village-Code>
