Scarsdale Sanitation: Pick-ups and Service Changes

Amidst the COVID-19 public health emergency, the Department of Public Works Sanitation Division is working hard on reduced staffing to provide essential sanitation services. However, we need your help to keep our personnel safe, maintain our pickup schedule, and reduce the likelihood that a pickup is missed.

Because we are operating with 50% our normal staffing, with personnel unfamiliar with the routes chipping in to help, we respectfully request the following from you during this emergency:

- No loose garbage. Please bag all garbage or place it in a trash can for pick-up.
- No bulk trash. Defer bulk trash until after the emergency is over.
- Make trash visible from driveway entrance. If it can't be seen from the street, we may miss it.
- Monitor for service changes. Any service changes will be communicated by press release.
- Be patient. DPW staff are doing their best with reduced staffing levels.

Service Changes

- The Recycling Office is closed to the public. However, residents may call 914-722-1294 with any recycling questions.
- To support social distancing, we are now limiting the number of vehicles permitted on-site at the Recycling Center by stopping traffic at the scale. Please be patient as you wait to be waived up by staff. Once on-property, please dispose of your items and leave the property as quickly as possible.
