Tropical Storm Isaias: Update

Scarsdale police, fire, and public works are responding to hundreds of emergency calls for service involving fallen trees, downed electric wires, and other emergencies.

There are scattered power outages and multiple road closures presently in effect, both locally and regionally. Village staff are coordinating our response with Westchester County and Con Edison emergency personnel hourly, with our next multi-agency conference call scheduled for tomorrow morning.

If you are experiencing a power outage, please report it to ConEd either by phone at 1-800-752-6633 or [online](#). Also, review the [Con Ed Outage Map](#) for service restoration estimates.

Important Safety Information

- Report any downed electric wires to the Scarsdale Police Department at 914.722.1200. Do not approach a downed wire, as electrocution may occur by coming in contact with something else that has been electrified by the downed wire.
- Do not remove caution tape from any location where it has been placed, as the tape is there to protect the public from a known safety hazard, potentially including such dangers as a shock hazard in connection with a live electric wire, an unsafe tree, or other life safety concern.
- By law, drivers must come to a complete stop at any non-functioning traffic signal. However, be aware of drivers that don't.
