03.12.21

Boniface Water Tower Renovation

Rehabilitation of Boniface Water Tower is scheduled to commence on Monday, March 15.

The scope of work includes cleaning and painting of the interior, exterior, and staircase, as well as installation of a new mixing system, upgrading of interior piping, and making various safety improvements. The approximate \$1.5M project is scheduled to be completed by May 31, 2021.

During the renovation, Boniface Tower will be taken out of service during the renovation period, but no water supply disruptions are anticipated, as our other stations are capable of pumping adequate supply during the temporary shutdowns.

However, brief reductions in water pressure may infrequently occur during the project, lasting in duration of a few minutes to perhaps one-half hour. Properties in the vicinity of Boniface Tower would be most likely to experience a temporary water pressure reduction.

If one should experience an extended water pressure reduction during the project period, please notify the Water Department at 914.722.1138 during normal business hours, Monday through Friday, from 9:00 AM to 5:00 PM. For any urgent water concerns outside of normal operating hours, please contact the Scarsdale Police Department at 914.722.1200.
