Website Updated for Better User Experience

The Advisory Council on Communications (ACC) and Village Staff are excited to announce the launch of Scarsdale's streamlined government website, redesigned to enhance the visitor experience!

A special thanks to the entire ACC for collaborating with staff to make the website more user-friendly. A site is also not complete without a visual language, a look and feel. We hope folks who visit the site will agree that the new scene-setting photos, taken by former Scarsdale resident Jay Cohen, telegraph a sense of place that is authentic and appealing, true to our hometown. Local photographer Andi Schreiber kindly shared her work too, adding vibrancy to the site.

As you know, a website is never really done. One thing we are aware of that still needs improving is the Sports & Rec registration platform. We will continue to finetune the virtual experience at Scarsdale.com. Our goal is to make it easy to find what you need on the site--whether it's paying a bill or checking the compost pickup schedule.

We hope that the new design leads to a better user experience for everyone. We also hope that if you do find any issues with the site, that you will report them to the team at communications@scarsdale.com.

Welcome to the updated [Scarsdale.com](https://www.scarsdale.com)!
