Girl Scouts Heart of the Hudson, Office of the Chief Executive Officer, 914.747.3080

### **Betty Taubert Girl Scout House Renewed Partnership**

Village of Scarsdale officials and Girl Scouts Heart of the Hudson representatives together announced that they met late last week in furtherance of their mutual commitment to move forward toward a renewed partnership strategy for the management, maintenance, and occupancy of the Betty Taubert Girl Scout House in Scarsdale. The parties share the goals of reopening the facility as quickly as possible and aligning on resolving its longer-term operational and capital needs.

*Said Helen Wronski, interim CEO of Girl Scouts Heart of The Hudson, and Robert Cole, Scarsdale Village Manager, "We are pleased with our constructive conversations on reopening the GSH and our healthy discussions on a strong and clear go-forward relationship. These are important first steps in commencing a fresh start in our continuing long-term partnership, making sure the needs of our Girls Scouts and the Scarsdale community are met by having access to a well-maintained facility."*

The Girl Scout House, built in 1979 and renamed the Betty Taubert Girl Scout House in 2005 to honor a tireless Girl Scouts volunteer in Scarsdale, is located on Village-owned property at 37 Wayside Lane and provides 6,000 usable square feet of activity space. The multi-purpose facility has historically hosted recreational and educational programs, meetings, and events organized by the partners and serves many users, including Girl Scout troops and service units, Village seniors, and others.
