October 26, 2022

### **2022 Fall Leaf Collection Begins**

Starting this week through December 02, the Village's annual Fall Leaf Collection Program is in effect. Leaves will be collected throughout the village approximately every twenty business days.

The Village wishes to remind residents, and their lawn care providers, that the Village Code prohibits depositing leaves onto the roadway. All leaves must be raked to the area between the curb and one's private property line for collection. Please keep all leaves for collection free of branches, grass clippings, and other debris, as they cannot be collected using the Village's equipment. Also, please note that the gas-powered leaf blowers are prohibited Saturday-Monday and on federal holidays. Electric powered blowers may be used on any day.

Leaves may also be placed into biodegradable paper bags and placed at the curb for weekly collections by Village crews. Additionally, no leaves are to be deposited into any brook, stream, or open watercourse within the village.

Residents are also encouraged to mulch mow their fall leaves in place, as on-site leaf mulching provides environmental health benefits to your lawn, reduces phosphate runoff, and reduces localized flooding from clogged storm drains.

For more information about this program, visit our [Fall Leaf Collection page](#) on the village website, or call the Department of Public Works at 914-722-1150.
