Sewer Lateral Compliance Program Takes Effect October 01

Pursuant to legislation adopted by the Village Board on February 28, 2023, effective October 01, 2023, the Village will be requiring Sewer Lateral Discharge Compliance Certificates upon any sale, transfer, or conveyance of any property within the Village. A compliance certificate is also required in the event of any substantial construction project costing over \$100,000.

The purpose of this program is to reduce infiltration and inflow of clean waters into the public sanitary sewer system, and to reduce sewage exfiltration into the natural waterways of the Village while ensuring that proper plumbing integrity is maintained. Visit our [website](#) to learn more about our program requirements as well other helpful information about common sewer defects and how to address them.

In the event of any program questions, please contact David J. Turiano, P.E. from the Village's consultant, LaBella Associates, at 914.305.3761 or dturiano@labellapc.com.
