New Traffic Pattern Pilot: Dine the `Dale Tent Relocation

Starting Monday, September 25, the Village will be testing a new traffic pattern on Spencer Place by relocating the Dine the `Dale Tent from its current location at the intersection of East Parkway to the intersection of Spencer Place and Chase Road. The tent will remain at this location through early December.

In fall of 2022, the Village's consultant FHI Studio presented the [Village Center Strategic Mobility and Placemaking Plan](#), which was achieved after multiple public workshops with input from the Village Board, staff, and members of the community. The plan yielded several recommendations, including more permanent gathering spaces on Spencer Place for residents, shoppers, commuters, and members of the business community to enjoy.

Moving the Dine the `Dale Tent to the opposite end of Spencer Place will allow us to pilot this new traffic pattern and obtain feedback to help make future decisions. To learn more about the Village's Strategic Mobility and Placemaking plan, visit scarsdalemobility.com. If you have any comments or questions about this traffic change, be sure to use the "Share Your Feedback" button on the webpage.
