SVAC Offering Covid-19 & Flu Vaccines to Homebound Residents

Under its Community Paramedicine program, Scarsdale Volunteer Ambulance Corps (SVAC) is offering Covid-19 and flu vaccines to homebound residents effective immediately. As New York State is no longer providing free Covid-19 vaccinations, SVAC will bill the vaccine recipients' insurance company. Those interested in receiving homebound vaccinations should write to covid@scarsdalevac.com.

SVAC is also considering a Saturday Covid-19 and flu vaccine clinic at the Scarsdale Volunteer Ambulance Corps Building, located at 5 Weaver Street, Scarsdale, NY 10583, for anyone three years and older. If you are interested, please email covid@scarsdalevac.com. If a strong response is received, a Saturday clinic will be scheduled.
